## FOREIGN FLASHES.

The district of Khonstan has revolted.

Tenbroeck's filley Frolic won the race for the Bismarck plate.

A disturbance occurred at Ashton, Eng., Thursday, owing to the strike. There are 150,000 refugees in Roumelia. A massacre of Musselmans is feared.

The ship carpenters of Dundee, Scot., have struck against a reduction of wages.

The Turkish debt will probably be resettled on the basis of a guarantee on customs.

It is probable that the short time system will be generally adopted in the cotton mills of England.

L. Stephenson &amp; Son, English merchants in the Australian trade, failed. Liabilities £200,000 to £400,000.

Daniloff, an eminent Russian engineer, has commenced work, by which it is intended to unite the Black and Caspian seas by connecting various rivers.

Count Ledochowski, ex-Arch Bishop of Posen, has been condemned by a Prussian tribunal to a fine of 20,000 marks or seventy days imprisonment, for communicating unlawfully a catholic who had obeyed the May laws.

The province of Santiago de Cuba has been declared in a state of war. Persons engaged in rebellion or sedition will be tried according to the law of March 13, 1870. Criminal cases will be tried by court martial. Rebels surrendering after the publication of this decree will be pardoned.

## SPORTING NOTES.

The Louisville Jockey Club races begin to-day.

Entries for the firemen's tournament at Cincinnati, are pouring in rapidly.

The famous thoroughbred mare Nina died at Richmond, Va., Friday, aged 32.

Base ball: Providence 15, Cincinnati 5; Chicago 6, Troy 6, draw game; Boston 10, Cleveland 7.

Entries for the fall meeting at Chester Park, Cincinnati, close to-day. The pacing race failed to fill and a trotting purse, \$1,000, for horses that have never beat 2:35, two mile heats, was substituted.

Chicago Jockey Club races, last day. The unfinished pacing race was won by Mattie Hunter, Rowdy Boy 2nd, Sleepy Tom 3rd; time, 2:15, 2:15, 2:15.

New York, Sept. 19.—Chicago, not less than 100,000 pounds of wool, from New York to the western terminals of trunk lines, railroad iron on a basis of 20 cents per pound, from New York to Chicago, not less than 20 cents per 100; from New York to the western terminals of trunk lines, rail and lake rates upon the above eight articles will be made upon the usual basis; from other seaboard cities adjusted differences will be maintained.

## STATE NEWS.

Ed. C. Chamberlain, of New Albany committed suicide last week by taking laudanum.

The reunion of the 37th regiment of Indiana volunteers took place last Thursday, at Lawrenceburg.

The corner stone of the orphan home of Jeffersonville, was laid Thursday and was an occasion of great display.

A. C. Burton, who lived at a hotel in Milroy, was found dead in bed last Thursday morning. He died of heart disease.

A boy named Woods, living near Muncie, was kicked in the head by a horse last Wednesday and fatally injured.

David Eurich, a well respected citizen of Noblesville, died suddenly on Wednesday of hemorrhage.

On Wednesday evening the Danville and Bloomington lodges of Knights of Pythias, accompanied by the Eagle Lodge, Greencastle, had a public parade at Greencastle.

Clay Hardy fell out of a wagon at Holmes station, last Thursday, and the wagon ran over him, injuring him very badly. Dr. Bonnell thinks he can not live.

The Wells County Pioneer Association was organized at Bluffton last week. Ten persons, of seventy years of age have connected themselves with the society and the list will be increased. They will attend the state fair in a body.

Alex. Covert, who recently shot and killed his brother Henry, near Newbern, has been indicted for murder in the second degree, and his trial will begin on Monday a week.

The sheriff of Franklin county took to the state prison south John Wilson, Lon. Johnson and C. C. McCarty. Wilson goes for four years for manslaughter, Johnson seven years for burglary, and McCarty one year for larceny.

Miss Alice Keefe, the young lady of Warsaw, who attempted to commit suicide a few days since, by cutting her throat with a razor, has since died. She was a beautiful and accomplished young lady, but in a moment of desperation after her final interview with her lover ended her life.

The soldiers reunion at Auburn, opened Friday, with a large attendance. Many tents are pitched and a dozen bands furnish music. Col. Zollinger of Fort Wayne, Col. I. B. McDonald of Columbia City, and Hon. John H. Baker of Goshen, made speeches.

At Columbia City, Friday, a Cherokee Indian blacksmith assisted Ben. Beeson, another blacksmith. Beeson and the Indian had some words Thursday night, and the Indian thought he would end it Friday. He shot at Beeson by holding his revolver in his pocket, but fortunately missed his aim. He attempted to shoot Marshal Supple, who arrested him.

Yellow Fever Notes.

Mrs. Jane Christmas, only daughter of the celebrated Mrs. Myra Clark Gaines, of New Orleans, died at Warrenton, N. C., of yellow fever.

Eleven cases, 3 white and 3 colored, and four additional deaths, Louis E. Solon, Allice A. Wood, Peter Harris and Mollie Davis, the last named colored, were reported at Memphis Friday.

Donations to the Howards on Friday, \$1,175.30, including \$1,000 from Chicago.

Four new cases and one death are reported at Concordia, Miss. Two physicians and two nurses were sent to Concordia to-day.

The attorney general of Tennessee decides that the state board of health had the right to enact the rule that no lint or seed cotton will be allowed to enter Memphis during the epidemic.

Fires.

At Dunbar, Pa., the barn and out buildings, in connection with the soldiers' orphan home, burned. Loss, \$2,500.

The theatre (Mich.) Journal office burned. Total loss.

G. G. Webber's dwelling house, at Urbana, Ill., burned. Loss, \$5,000; insurance, \$4,500.

Adam Blessner's building at Manitowish, Wis., burned. Loss, \$5,000; insurance, \$4,500.

Tremor &amp; Co.'s paint works, at New York, burned. Loss, \$50,000.

Prudent people always have Dr. Bull's Baltimore Pills convenient. They often take the place of a doctor and cost only 25 cents. For sale everywhere.

RIGHT TIME TO OPERATE IN STOCKS.

By recent communication with prominent stock operators, we learn that now is a favorable time to take advantage of the stock market, by the new combination method of Messrs. Lawrence &amp; Co., the New York bankers, who have been so remarkably successful heretofore. This system is founded on correct rules of finance and is universally approved by the shrewdest operators. The orders of thousands of customers are massed into one immense capital and operated as a great whole, dividing profits and losses in proportion to the amount of capital invested. In this way any customer can invest from \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

This is a new circular has two interesting features: First, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Second, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Third, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Fourth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Fifth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Sixth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Seventh, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Eighth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Ninth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Tenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Eleventh, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Twelfth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Thirteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Fourteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Fifteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Sixteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Seventeenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Eighteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

Nineteenth, it will enable you to invest \$100 to \$10,000, and obtain the same advantages of large capital and skill in manipulation.

## INDUSTRY.

## A Careful Review of the Manufacturing Interests of Fort Wayne.

## Something About the Factories, Foundries, Mills, and Work Shops of the City.

## The Number of Men Employed, Amount of Capital Invested and Value of Products.

## Complete Catalogue of the Articles Manufactured at This Point.

## An Exhibit of Which Every Citizen May Well Feel Proud.

## INTRODUCTORY.

Fort Wayne is pre-eminently a manufacturing city. The foundation of her prosperity is found in the mills and factories and foundries which are scattered so profusely about her limits. In the skill of her artisans, the intelligence of her mechanics, the brain and muscle of her laborers, lie the elements of Fort Wayne's greatness. The never tiring wheels of industry, propelled by the monster, steam, and guided by the skill, intelligence and industry of the mechanics of Fort Wayne, with every revolution make an addition to the wealth of the city, add to her importance as a producing and distributing point, enlarge the volume of her business, and contribute to her growth in population and her advance in prosperity. Fort Wayne has attained her present position among the leading cities of the west, not as the center of a rich agricultural country, nor as the home of millions of idle capital, nor as the seat of a great jobbing trade—which has, however of late years assumed immense proportions—but rather as the location of large and varied manufacturing interests, including among her products an immense variety of articles, useful and ornamental.

A SENTINEL reporter was detailed some days since to gather information concerning the present condition of our manufacturing interests, with the especial purpose of obtaining an approximately correct number of hands employed in the various branches of industry, and the amount or value of the daily production of manufactured articles. The increased demand for houses to rent led to a renewed activity in our manufacturing institutions, and the facts as gathered by the reporter, sustain the correctness of this belief. With but one or two exceptions our mills, foundries and factories were found running as large, if not larger, forces of men than ever before, on full time and up to the limit of their capacity. Some of them have of late largely increased their facilities, and considerable enlargements and additions are now in contemplation.

In a carefully prepared speech delivered before the late lamented chamber of commerce in 1876, Mr. Henry G. Olds estimated the amount of capital invested in our manufacturing interests at \$10,000,000 to \$12,000,000; the number of men employed at 3,000; the annual value of the products at \$20,000,000; the cash disbursements for labor at \$3,000,000 to \$4,000,000 annually, and for material from \$700,000 to \$1,000,000 monthly. It is certain that the figures are larger now than then, for our manufacturing interests are in a much more flourishing condition in 1879 than they were in 1876. The information herewith presented is not so full nor complete as could be desired. But the article is by no means intended to be exhaustive, and the subject will be returned to again by the SENTINEL.

## RAILROAD SHOPS.

The principal shops of the Pittsburgh, Fort Wayne and Chicago, Wabash, and Fort Wayne, Maucie and Cincinnati railroads are located in this city, and are our leading manufacturing institutions.

## P. F. W. &amp; C. SHOPS.

The Pittsburgh, Fort Wayne and Chicago shops, under the general superintendence of Master Mechanic James M. Boone, cover some six squares in the heart of the city, and give employment to men as follows:

Car shops, Israel Lee, foreman, 200

Blacksmith shop, Harry Campbell, foreman, 119

Boiler and copper shops, John Doty and S. C. Henderson, foremen, 45

Machine shop, S. B. Bradley, foreman, 75

Trunk shop, P. J. Higgins, foreman, 10

Round house, D. E. Strope, foreman, 75

Employed in offices and miscellaneous, 40

Total, 514

\*This includes fifty men employed in the number given.

The amount invested in this property, and the annual value of the products of the shops could not be ascertained definitely, as the data are not available. A careful estimate, however, places the sum annually expended for the labor alone at \$350,000 to \$400,000, which vast amount is in turn distributed by the recipients among our retail business men, supporting a great many branches of trade and affording a livelihood to large numbers of people.

The shops are now running in full blast. The products include locomotive engines, palace day and sleeping coaches and cars of all descriptions, box cars, stock cars, flat cars, refrigerator cars, express and baggage cars, ordinary passenger cars, etc. All of the locomotives used on the western division of the P. F. W. & C. Ry. are built here, as well as a large proportion of the cars of all descriptions, in addition by the Pennsylvania lines. In addition to this, locomotives and cars are built for many other

railroads all over the country. All of the repairs of the western division as well as of the Grand Rapids and Richmond roads are also made here, which of itself constitutes a large share of the work.

The chief triumph of these shops is the "Boone" engine, which is generally acknowledged by practical men to be the finest locomotive built.

These locomotives are models of beauty and perfection and are so evenly adjusted and so scientifically constructed that they gain the benefit of every pound of steam and produce the greatest amount of power with the greatest saving of steam.

Almost every portion of a locomotive engine is made in these shops. Columns might be written upon these shops, but space forbids, and they will be made the subject of a special article at an early date.

## THE WABASH SHOPS.

The Wabash shops, although not so large as the Pittsburgh, are still quite extensive and rank among our leading manufacturing institutions. They are under the direction of W. Wilson, master mechanic, and employ the following men:

Machine shops—J. B. Barnes, foreman, 85

Boiler shops—O. B. Lape, foreman, 40

Blacksmith shops—Dan Campbell, foreman, 119

Coppersmith shop—L. Newirth, foreman, 45

Press moulders foundry, Jas. Knoke, foreman, 50

Copper shops—H. Poyser, foreman, 50

Round houses—J. C. Mills, foreman, 47

Master mechanic's office—W. Wilson, M. M., 10

Total (exclusive of engineers and drivers), 520

These shops consist of five very large buildings. The principal work is the building of locomotives and the repair of engines and cars. The bulk of the repairs for the Wabash road between Danville and Toledo is done in these shops.

## THE MAUCIE SHOPS.

The Maucie shops were established in this city about five years ago. They are located in the ninth ward, near the feeder canal, and give employment to sixty-eight men.

Wm. McPhail is the master mechanic. Wm. Knight is the master car builder and Jos. Gair foreman of the blacksmith shop. In this shop is done the repair work of the Fort Wayne, Maucie and Cincinnati and Whitewater Valley Railroads.

## SUMMARY.

The railroad shops above mentioned give employment to 988 men, as follows:

Pittsburgh shops, 614

Wabash shops, 520

Maucie shops, 68

Total, 1202

A careful estimate places the annual expenditure for the labor in these shops at \$582,232, as follows:

Pittsburgh, \$333,126

Wabash, 156,091

Maucie, 42,423

Total, \$531,640

The amount expended in this city and vicinity by the above companies for stock and material is of course very large.

## IRON FOUNDRIES, ETC.

## THE BASS SHOPS.

Second only to the Pittsburgh shops in the number of hands employed, amount of capital invested and annual value of products, are the Bass Foundry and Machine shops. These works were established in 1858, twenty-six years ago, and since that time have steadily increased in size and importance until to-day they are the largest works of the kind in the world, and represent a capital of \$500,000. Besides the works here Mr. Bass owns and controls the St. Louis car wheel foundry and a large foundry in Chicago.

In these works, although not much light work is contracted, yet anything can be made from a small set screw to a 300 horse power engine. The works in this place employ about five hundred hands at present, but often run largely over that number. All the castings for the Noble School Furniture Co., of Goshen, are made in the Bass foundry, also for a similar company in Pittsburgh, while all the car wheels for the Pittsburgh and many other first class roads are made at their works. Railroads from Maine to California and from Minnesota to Texas are supplied. The Bass wheel is the best in the market, and is used by all first class roads, although it is not very generally sold to car builders, who can not afford to pay the price of an "A. 1" wheel, and are consequently compelled to substitute an inferior one; however, when said wheel "gives out" it is invariably replaced by a Bass wheel, and it is probably safe to say that there is not a foot of broad gauge track in the United States, that has not been traversed by a Bass car wheel. Proposals have been received from South America for the purchase of car wheels for roads in that country, but it is hardly probable that the propositions will be entertained, as the home orders can not be filled. The business of the concern has increased each year, and each year has seen some addition or improvement made on the company's premises. At present there is in course of construction a large brick building to be used as a cleaning and polishing room.

The force is officered as follows: T. R. Pickard, superintendent of works and foreman of foundry; J. Sten Smith, assistant superintendent; Geo. H. Terry, assistant foreman of foundry; Geo. Warrington, mechanical engineer; T. W. Saffron, foreman machine shop; S. J. Lally, foreman pattern shop; Joseph Whann, chief millwright; Wm. Schiwer, foreman boiler shop; THE MURRAY FOUNDRY.

One of our most important manufacturing institutions is the Murray foundry, on South Calhoun street, which was established fifteen years ago, and which has steadily grown until the business has reached vast proportions. The capital invested is \$100,000, and the average number of hands employed is 115. During the past summer the shops have run much

of the time fifteen hours per day. The specialties are engines, boilers and gas works. Mr. Murray has built gas works for nearly every state and territory in the land and for points in the Canadas. He also makes machinery for the manufacture of gas works. Mr. Murray is about establishing a large foundry in Lafayette, but will probably keep his shop in this city, at least for the present.

## THE OLDS FOUNDRY.

The foundry and machine works of C. L. Olds & Co., occupy nearly a square on Water street between Calhoun and Harrison, there being four large brick buildings. These works were established in 1842 by Bowser & Story; were subsequently conducted by J. C. Bowser & Co., and in 1876 passed into the hands of the present enterprising proprietors, C. L. Olds & Company.

These works turn out engines and machinery of the very best class, and have filled orders for engines, boilers, etc., from Boston to Sacramento and from Traverse City, Mich., to Jacksonville, Fla. One of the finest engines ever built was turned out of these shops and used in the Centennial buildings. A great deal of machinery for tanneries and sugar mills is made.

In 1877 the Western Bridge Works were established in connection with this foundry. There are now orders to be filled for over a mile of bridges. The average number of hands employed is 200.

Robt. Hanna is foreman of the machine shop. F. Brantmeyer of the foundry, Julius Tonno of the boiler shop, Henry Hilbrecht of the blacksmith shop, Jerry Strong of the pattern shop and J. A. McKee is superintendent of the bridge works.

## STOVE FOUNDRY.

T. R. Pickard & Sons have an extensive stove foundry on the north side, employing about 30 men. They also do some general casting, but stoves are their specialty. They ship to all parts of the west.

THE TOTAL NUMBER OF HANDS EMPLOYED IN THE FOUNDRIES IS AS FOLLOWS:

Bass, 500

Murray, 115

Olds, 200

Pickard, 85

Total, 800

## FACTORIES.

## THE OLDS FACTORY.

N. G. Olds & Sons have an immense institution, employing 550 hands, and turn out spokes, hubs, wheels and carriage stock. Shipments are made all over the United States and Canada, to Mexico, the West Indies, South America and Europe. In the absence of Mr. Olds more detailed information could not be obtained.

## BOWSER &amp; WHITE.

The above firm are extensive manufacturers of rubber spokes, wheels, and in fact all parts of a wagon. Their factory at the east end of Wayne street, is a very large one, and employs constantly about 110 men. During the past two or three years extensive additions have been made, new machinery purchased, and now the business has increased to such an extent that it is probable more facilities will be added to meet the demand. At present they ship to all the principal cities of the country and Australia.

## HOFFMAN'S MILLS.

Hoffman Bros. saw mill and wood working factory, on West Main street, was established ten years ago and gives employment to 150 hands on the average. Their saw mills are the finest in the state, the saws being all hand saws, a patent of Mr. Hoffman's own invention. Besides sawing a great deal of hard wood, consisting largely of walnut and ash, Hoffmans manufacture a large quantity of cabinet rough work, consisting of chair rockers, backs, frames, carriage mouldings, etc. They ship principally to the east.

## THE PETERS BOX AND LUMBER CO.'S

This factory is one of the most extensive industrial establishments on the north side. Sixty hands are now constantly employed, and the establishment at all times presents a very busy appearance. Wooden brackets and all kinds of hollow wooden ware are manufactured, as well as walnut mouldings of all kinds.

## RHINESMITH &amp; SIMONSON

are nicely established in commodious quarters south of the Wabash Railroad, on Lafayette street. They employ from 25 to 30 hands regularly, and besides running a planing and matching mill, they manufacture sash, doors, blinds, mouldings, etc. They report business fifty percent better than last year, and the general outlook better than it has been at any time since 1873. They employ a capital of about \$60,000, and besides their manufacturing interests deal largely in rough and dressed lumber.

## THE ORGAN FACTORY.

The Fort Wayne Organ Factory is conducted by a stock company having a capital of \$50,000. It was established in 1872 and proved a success from the beginning. It occupies a large three-story brick building on Fairfield avenue, south of the city limits, and gives employment to sixty hands. The organs made here have obtained a superior reputation, and are shipped all over the United States. The average product is six complete organs a day all the year round, making a grand total of nearly 2,000 organs per annum. G. E. Bursley is general manager of the institution, and R. F. Keith general foreman.

## R. B. GREEN IS FOREMAN OF THE CABINET SHOP, J. H. ROHAN OF THE VARNISH SHOP, AND FINISHING ROOM, BROOKS FRENCH OF THE STOP ROOM, H. M. LIND OF THE ACTION ROOM, J. W. TANKER OF THE BELLows, and M. K. K. OF THE MILL.

## CANEY &amp; WATSON &amp; CO.

have an extensive institution on Ewing street, north of the canal, where

they manufacture heading and staves. They have a capacity of thirty cords per day. The factory is running night and day, and has 54 names on the pay roll, the disbursements for labor averaging \$2,500 per month. Their shipments are mostly to Missouri and Kansas.

## THE FORT WAYNE STAVE AND COOPERAGE WORKS (OLDS &amp; SHURICK)

also present a very busy scene to the visitor. The factory employs from 70 to 80 men, and all kinds of barrels, hogheads, packing stands, etc., are made. Staves, hoops, heading, and all material used in the manufacture of barrels are dressed and shipped in bulk to every part of the union.

## STEVENS &amp; CO., TREES HOOPS.

Closely by Bowser & White's we find the tree hoop factory of Stevens & Co. They now employ but twelve men, but from the general outlook and the increasing demand for their hoops, the number of workmen will have to be increased. The investment is \$25,000, and from present indications will double itself very shortly if business continues as it is at present.

## JACOBY &amp; WIEGAND,

manufacturers of doors, sash, blinds, mouldings, etc., have been established here about ten years, and since that time have built up a nice trade. They ship no goods whatever as their facilities are taxed to supply the home trade. They employ an average of twenty hands.

## WHEELER &amp; CO.

Wheeler & Co., at the corner of Broadway and Main streets, employ seven men. They manufacture chair stock and handles of all kinds and are building up a big business.

## JURKHOLDER &amp; CO.

whose shops are on Water street, employ ten men and manufacture furniture of all kinds. They ship mostly to points in Indiana and are behind on their orders. They have an invested capital of \$10,000.

## COCHRANE, HUMPHREY &amp; CO.,

whose shop is on Pearl street, employ twelve men and manufacture sash, door, blinds, etc.

## SUMMARY.

A summary shows the following grand total of hands employed in the factories of this city:

Olds, 550

Bowser & White, 100

Hoffman's, 150

RhineSmith & Simonson, 60

Organ Factory, 60

Olds & Shurick, 80

Stevens & Co., 12

Jacoby & Wiegand, 20

Wheeler & Co., 7

Jurkholder & Co., 10

Cochrane, Humphrey & Co., 12

Total, 1,100

## CLOTHING, CLOTHS, ETC.

## WOOLEN FACTORY.

French, Hanna & Co.'s woollen factory, East Water street, occupies a very large and imposing building. They manufacture cloth, suitings, jeans, flannels, blankets, yarns, etc., and ship to Ohio, Indiana, Minnesota, Illinois and Iowa. Number of men employed, thirty.

## THE HOOSIER MANUFACTURING COMPANY

on Clinton street is a new institution, having been started last October. It employs 100 hands, mostly women, and builds overalls, pants, shirts, etc., which are shipped all over the country. It uses 34 machines run by steam and 60 by foot power, and consumes 9000 yards of material every week.

## SUMMARY.

French, Hanna & Co., 30

Hoosier Manufacturing Co., 100

Total, 130

## BREWERIES.

## AN IMPORTANT INTEREST.

Among our leading manufacturing institutions are our breweries, which represent a large capital, are owned by enterprising and public spirited men, and give employment to a large number of hands. They turn out a superior article of beer, which meets with a good market here and in surrounding towns. Our breweries have not, however, been patronized so liberally as they deserve. It is estimated that Fort Wayne sends over \$100,000 every year to Cincinnati, Toledo, Chicago and other cities for beer, when it might much better be kept at home, paid to our own brewers and expended by them for labor, etc.

## THE FRENCH BREWERY.

C. L. Cullivore, proprietor, was established in 1862 with a storage capacity of 1,000 barrels. Now it has a storage capacity of 5,000 barrels, and can turn out 20,000 to 25,000 barrels per year. The brewery has all the modern improvements, including bottling works, which were added in 1873. The capital invested is \$50,000. The beer is sold here and shipped to nearly all points within a radius of 100 miles. Twenty hands are constantly employed.

## LINKER, HEY &amp; DREYER

This enterprising firm employ seven men and manufacture 4,000 barrels per year. About one-half is sold in the city and the remainder is shipped to New Haven and other surrounding towns.

## BLOOMINGDALE BREWERY.

This establishment was founded 25 years ago and is owned by Rankert, Lutz & Co. It has a capacity of 5,000 barrels and employs six men. The beer is sold in Fort Wayne and at various points within a radius of 100 miles.

## GEORGE HORNING

employs five men and manufactures 2,500 barrels annually.

## SUMMARY

men employed in breweries:

French, Hanna & Co., 30

Hoosier Manufacturing Co., 100

Linker, Hey & Dreyer, 7

Bloomington Brewery, 6

George Horning, 5

Total, 148

FLOUR MILLS.

An important and valuable industry is the manufacture of flour, cornmeal, spices, etc.

## CITY MILLS.

Hoagland & Tresselt have four run of stone, employ ten men and average eighty barrels of flour per day, which is shipped mainly to the east.

## EMORY'S MILL.

This mill employs five men and turns out seventy-five barrels of flour daily. Shipments principally eastward.

## TRENTMAN, MONNING &amp; SON.

This firm has \$40,000 capital invested, employs eight hands, manufactures flour, ground coffee, etc., and ships to Indiana, Ohio, Michigan, Illinois and other states.

## BLOOMINGDALE MILLS.

These mills run sixteen hours per day, employ ten men and have been established twelve years. They have a capacity of 120 barrels per day, and produce on an average of 75 barrels per day.

## RUDISILL'S MILLS.

These mills employ seven men and produce sixty-five barrels per day.

## HAMILTON'S MILLS.

These mills have been established eight years, and grind spices and roast coffee, and make baking powder. Their goods are shipped all over the country. They employ eight men.

## SUMMARY.

All of our mills now make the patent process flour. The total product of the city is about 500 barrels per day.

Men employed:

City mills, 40

Hoagland & Tresselt, 10

Emory's, 5

Trentman, Monning & Son, 8

Bloomington Mills, 16

Rudisill's mills, 7

Hamilton's mills, 8

Total, 94

## MARBLE AND STONE.

## SUTHERMASTER &amp; CO.,

stone and marble works, employ fifteen men.

## CITY STEAM MARBLE WORKS.

These works employ seven men.

## UNDERHILL'S MARBLE WORKS.

Ten men are employed in these works.

## SUMMARY.

Suthermaster & Co., 15

City Works, 7

Underhill's, 10

Total, 32

## MISCELLANEOUS.

FRED. ECKERT'S PACKING HOUSE, established only about eighteen months ago, has already become recognized as one of Fort Wayne's most flourishing industries. Although at present killing only about 400 head of hogs per week and employing but eight hands, the season will soon open when Mr. Eckert will slaughter from 800 to 1000 head per day and will be obliged to employ about 20 or 25 hands.

## MC KEAN &amp; O'ROURKE.

Among the successful enterprises of more recent date stands prominent the soap factory of McKean & O'Rourke, situated on the canal near White's factory. The factory has been running now just about a year, and the prospect is most encouraging. McKean & O'Rourke boil soap about once a week, and the usual batch is about 12,000 pounds. The process of manufacturing soap is decidedly interesting. After being boiled the mass is allowed to stand two or three days, when it becomes sufficiently cool to work or to be "crutched." It is then drawn off and allowed to harden when it is cut into cakes, stamped, weighed and boxed. They manufacture twelve brands of laundry soap, besides two brands of fine castile. Their sales are about 120 boxes per week and can easily be increased as soon as they can obtain the manufacturing facilities. Their goods go into Ohio and Michigan besides this state. Quite recently they have also engaged in preparing a superior blueing, branded the "Favorite." Six men are now employed.

## FLOW WORKS.

J. K. Edgerton's plow works, corner of Maiden Lane and Main street, employ 20 men and turn out all kinds of plows, scrapers, road levers, grain and seed cleaners, harrows, etc. Mr. Edgerton ships all over the west.

## INDUSTRY.

## A Careful Review of the Manufacturing Interests of Fort Wayne.

## Something About the Factories, Foundries, Mills, and Work Shops of the City.

## The Number of Men Employed, Amount of Capital Invested and Value of Products.

## Complete Catalogue of the Articles Manufactured at This Point.

## An Exhibit of Which Every Citizen May Well Feel Proud.

## INTRODUCTORY.

Fort Wayne is pre-eminently a manufacturing city. The foundation of her prosperity is found in the mills and factories and foundries which are scattered so profusely about her limits. In the skill of her artisans, the intelligence of her mechanics, the brain and muscle of her laborers, lie the elements of Fort Wayne's greatness. The never tiring wheels of industry, propelled by the monster, steam, and guided by the skill, intelligence and industry of the mechanics of Fort Wayne, with every revolution make an addition to the wealth of the city, add to her importance as a producing and distributing point, enlarge the volume of her business, and contribute to her growth in population and her advance in prosperity. Fort Wayne has attained her present position among the leading cities of the west, not as the center of a rich agricultural country, nor as the home of millions of idle capital, nor as the seat of a great jobbing trade—which has, however of late years assumed immense proportions—but rather as the location of large and varied manufacturing interests, including among her products an immense variety of articles, useful, ornamental, and profitable.

A SENTINEL reporter was detailed some days since to gather information concerning the present condition of our manufacturing interests, with the especial purpose of obtaining an approximately correct number of hands employed in the various branches of industry, and the amount or value of the daily production of manufactured articles. The increased demand for houses to be rented to a belief in renewed activity in our manufacturing institutions, and the facts as gathered by the reporter, sustain the correctness of this belief. With but one or two exceptions our mills, foundries and factories were found running as large, if not larger, forces of men than ever before, on full time and up to the limit of their capacity. Some of them have of late largely increased their facilities and considerable enlargements and additions are now in contemplation.

In a carefully prepared speech delivered before the late lamented chamber of commerce in 1876, Mr. Henry G. Olds estimated the amount of capital invested in our manufacturing interests at \$10,000,000; the number of men employed at 3,000; the annual value of the products at \$20,000,000; the cash disbursements for labor at \$3,000,000 to \$4,000,000 annually, and for material from \$700,000 to \$1,000,000 monthly. It is certain that the figures are larger now than then, for our manufacturing interests are in a much more flourishing condition in 1879 than they were in 1876.

The information herewith presented is not so full nor complete as could be desired. But the article is by no means intended to be exhaustive, and the subject will be returned to again by the SENTINEL.

## RAILROAD SHOPS.

The principal shops of the Pittsburgh, Fort Wayne and Chicago, Wabash, and Fort Wayne, Muncie and Cincinnati railroads are located in this city, and are our leading manufacturing institutions.

## P. F. W. &amp; C. SHOPS.

The Pittsburgh, Fort Wayne and Chicago shops, under the general superintendence of Master Mechanic James M. Boone, cover some six squares in the heart of the city, and give employment to men as follows:

Car shops, Israel Lee, foreman, 250  
Blacksmith shop, Harry Campbell, foreman, 119  
Boiler and copper shops, John Doty and S. C. Henderson, foremen, 45  
Machine shop, S. B. Bradley, foreman, 75  
Tank shop, T. J. Hedges, foreman, 10  
Round house, D. B. Slope, foreman, 75  
Employed in offices and miscellaneous, 40  
Total, 614

railroads all over the country. All of the repairs of the western division as well as of the Grand Rapids and Richmond roads are also made here, which of itself constitutes a large share of the work.

The chief triumph of these shops is the "Boone" engine, which is generally acknowledged by practical men to be the finest locomotive built.

These locomotives are models of beauty and perfection and are so evenly adjusted and so scientifically constructed that they gain the benefit of every pound of steam and produce the greatest amount of power with the least saving of steam.

Almost every portion of a locomotive engine is made in these shops. Columns might be written upon these shops, but space forbids, and they will be made the subject of a special article at an early date.

## THE WABASH SHOPS.

The Wabash shops, although not so large as the Pittsburgh, are still quite extensive and rank among our leading manufacturing institutions. They are under the direction of W. Wilson, master mechanic, and employ the following men:

Machine shop—J. B. Barnes, foreman, 85  
Boiler shop—C. F. Lape, foreman, 40  
Blacksmith shop—Dan Campbell, foreman, 119  
Coppersmith shop—L. Newirth, foreman, 45  
Brass moulder foundry, Jas. Kucknick, foreman, 30  
Carpenter shops—H. Poyser, foreman, 30  
Round house—J. C. Mills, foreman, 47  
Master mechanic's office—W. Wilson, 1  
Total, 321

These shops consist of five very large buildings. The principal work is the building of locomotives and the repair of engines and cars. The bulk of the repairs for the Wabash road between Danville and Toledo is done in these shops.

## THE MUNCIE SHOPS.

The Muncie shops were established in this city about five years ago. They are located in the ninth ward, near the feeder canal, and give employment to sixty-eight men.

Wm. McPhail is the master mechanic. Wm. Knight is the master car builder and Jos. Gair foreman of the blacksmith shop. In this shop is done the repair work of the Fort Wayne, Muncie and Cincinnati and Whitewater Valley Railroads.

## SUMMARY.

The railroad shops above mentioned give employment to 933 men, as follows:

Pittsburgh shops, 614  
Wabash shops, 321  
Muncie shops, 68  
Total, 933

A careful estimate places the annual expenditure for the labor in these shops at \$582,232, as follows:

Pittsburgh, \$383,136  
Wabash, 156,644  
Muncie, 42,452  
Total, \$582,232

## IRON FOUNDRIES, ETC.

## THE BASS SHOPS.

Second only to the Pittsburgh shops in the number of hands employed, amount of capital invested and annual value of products, are the Bass Foundry and Machine shops. These works were established in 1853, twenty-six years ago, and since that time have steadily increased in size and importance until to-day they are the largest works of the kind in the world, and represent a capital of \$500,000. Besides the works of Mr. Bass, who owns and controls the St. Louis car wheel foundry and a large foundry in Chicago.

In these works, although not much light work is contracted, yet anything can be made from a small set screw to a 300 horse power engine. The works in this place employ about five hundred hands at present, but often run largely over that number. All the castings for the Noble School Furniture Co., of Goshen, are made in the Bass foundry, also for a similar company in Pittsburgh, while all the car wheels for the Pittsburgh and many other first class roads are made at their works. Railroads from Maine to California and from Minnesota to Texas are supplied. The Bass wheel is the best in the market and is used by all first class roads, although it is not very generally sold to car builders, who can not afford to pay the price of an "A 1" wheel, and are consequently compelled to substitute an inferior one; however, when said wheel "gives out" it is invariably replaced by a Bass wheel, and it is probably safe to say that there is not a foot of broad gauge track in the United States, that has not been traversed by a Bass car wheel. Propositions have been received from South America for the purchase of car wheels for use in that country, but it is hardly probable that the propositions will be entertained, as the home orders can not be filled. The business of the concern has increased each year, and each year has seen some addition or improvement made on the company's premises. At present there is in course of construction a large brick building to be used as a cleaning and polishing room.

The force is officered as follows: T. R. Pickard, superintendent of works and foreman of foundry; J. Sion Smith, assistant superintendent; Geo. H. Terry, assistant foreman of foundry; Geo. Warrington, mechanical engineer; T. W. Saffron, foreman machine shop; S. J. Luly, foreman pattern shop; Joseph Whan, chief millwright; Wm. Schiwer, foreman boiler shop.

## THE MURRAY FOUNDRY.

One of our most important manufacturing institutions is the Murray foundry, on South Calhoun street, which was established fifteen years ago, and which has steadily grown until the business has reached vast proportions. The capital invested is \$500,000, and the average number of hands employed is 115. During the past summer the shops have run much

of the time fifteen hours per day. The specialties are engines, boilers and gas works. Mr. Murray has built gas works for nearly every state and territory in the land and for points in the Canada. He also makes machinery for the manufacture of gas works. Mr. Murray is about establishing a large foundry in Lafayette, but will probably keep his shop in this city, at least for the present.

## THE OLDS FOUNDRY.

The foundry and machine works of C. L. Olds & Co., occupy nearly a square on Water street between Calhoun and Harrison, there being four large brick buildings. These works were established in 1842 by Bower & Story; were subsequently conducted by J. C. Bower & Co., and in 1876 passed into the hands of the present enterprising proprietors, C. L. Olds & Company.

These works turn out engines and machinery of the very best class, and have filled orders for engines, boilers, etc., from Boston to Sacramento and from Traverse City, Mich., to Jacksonville, Fla. One of the finest engines ever built was turned out of these shops and used in the Centennial buildings. A great deal of machinery for tanneries and sugar mills is made.

In 1877 the Western Bridge Works were established in connection with this foundry. There are now orders to be filled for over a mile of bridges. The average number of hands employed is 200.

Rob't Hanna is foreman of the machine shop. F. Brantmeyer of the foundry, Julius Tonne of the boiler shop, Henry Hilbrecht of the blacksmith shop, Jerry Strong of the pattern shop and J. A. McKee is superintendent of the bridge works.

## STOVE FOUNDRY.

T. R. Pickard & Sons have an extensive stove foundry on the north side, employing about 30 men. They also do some general casting, but stoves are their specialty. They ship to all parts of the west.

## SUMMARY.

The total number of hands employed in the foundries is as follows:

Bass, 500  
Murray, 115  
Olds, 200  
Pickard, 30  
Total, 845

## FACILITIES.

## THE OLDS FACTORY.

N. G. Olds & Sons have an immense institution, employing 550 hands, and turn out spokes, hubs, wheels and carriage stock. Shipments are made all over the United States and Canada, to Mexico, the West Indies, South America and Europe. In the absence of Mr. Olds more detailed information could not be obtained.

## BOSEKER &amp; WHITE.

The above firm are extensive manufacturers of hubs, spokes, wheels, and in fact all parts of a wagon. Their factory at the east end of Wayne street, is a very large one, and employs constantly about 110 men. During the past two or three years extensive additions have been made, new machinery purchased, and now the business has increased to such an extent that it is probable more facilities must be added to meet the demand. At present they ship to all the principal cities of the country and Australia.

## HOFFMAN'S MILLS.

Hoffman Bros. saw mill and wood working factory, on West Main street, was established ten years ago and gives employment to 150 hands on an average. Their saw mills are the finest in the state, the saws being all hand saws, a patent of Mr. Hoffman's own invention. Besides sawing a great deal of hard wood, consisting largely of walnut and ash, Hoffmans manufacture a large quantity of cabinet rough work, consisting of chair rockers, backs, frames, carriage mouldings, etc. They ship principally to the east.

## THE PETERS BOX AND LUMBER CO.'S

factory is one of the most extensive industrial establishments on the north side. Sixty hands are now constantly employed, and the establishment at all times presents a very busy appearance. Wooden buckets and all kinds of hollow wooden ware are manufactured, as well as walnut mouldings of all kinds.

## RHINESMITH &amp; SIMONSON

are nicely established in commodious quarters south of the Wabash Railroad, on Lafayette street. They employ from 25 to 30 hands regularly, and besides running a planing and matching mill, they manufacture sash, doors, blinds, mouldings, etc. Their report business fifty percent better than last year, and the general outlook better than it has been at any time since 1873. They employ a capital of about \$60,000, and besides their manufacturing interests deal largely in rough and dressed lumber.

## THE ORGAN FACTORY.

The Fort Wayne Organ Factory is conducted by a stock company having a capital of \$50,000. It was established in 1872 and proved a success from the beginning. It occupies a large three-story brick building on Fairfield avenue, south of the city limits, and gives employment to sixty hands. The organs made here have obtained a superior reputation, and are shipped all over the United States. The average product is six complete organs a day all the year round, making a grand total of nearly 2,000 organs per annum. G. E. Bursley is general manager of the institution, and R. F. Keith general foreman.

R. B. Green is foreman of the cabinet shop, J. H. Rohan of the varnishing and finishing room, Brooks French of the stop room, H. M. Lind of the action room, J. W. Tanner of the bellows, and M. J. of the mill.

## THE FRENCH FACTORY.

French, Hanna & Co.'s wooden factory, East Water street, occupies a very large and imposing building. They manufacture cloth, satinet, jeans, flannel, shirtings, yarns, etc., and ship to Ohio, Indiana, Minnesota, Illinois and Iowa. Number of men employed, thirty.

they manufacture heading and staves. They have a capacity of thirty cords per day. The factory is running night and day, and has 54 names on the payroll, the disbursements for labor averaging \$2,500 per month. Their shipments are mostly to Missouri and Kansas.

## THE FORT WAYNE STAVE AND COOR-ERAGE WORKS (OLDS &amp; SHURICK).

also present a very busy scene to the visitor. The factory employs from 70 to 80 men, and all kinds of barrels, hogheads, packing stands, etc., are made. Staves, hoops, heading, and all material used in the manufacture of barrels are dressed and shipped in bulk to every part of the union.

## STEVENS &amp; CO., TRESS HOOPS.

Close by Boserker & White's we find the tress hoop factory of Stevens & Co. They now employ but twelve men, but from the general outlook and the increasing demand for their hoops, the number of workmen will have to be increased. The investment is \$25,000, and from present indications will double itself very shortly if business continues as it is at present.

## JACOBY &amp; WIEGAND.

manufacturers of doors, sash, blinds, mouldings, etc., have been established here about ten years, and since that time have built up a nice trade. Their ship no goods whatever as their facilities are taxed to supply the home trade. They employ an average of twenty hands.

## WHEELER &amp; CO.

Wheeler & Co., at the corner of Broadway and Main streets, employ seven men. They manufacture chair stoves and handles of all kinds and are building up a big business.

## BURKHOLDER &amp; CO.

whose shops are on Water street, employ ten men and manufacture furniture of all kinds. They ship mostly to points in Indiana and are behind on their orders. They have an invested capital of \$16,000.

## COCHRANE, HUMPHREY &amp; CO.

whose shop is on Pearl street, employ twelve men and manufacture sash, door, blinds, etc.

## SUMMARY.

A summary shows the following grand total of hands employed in the factories of this city:

Olds, 500  
Boserker & White, 110  
Hoffman's, 150  
Peters, 60  
Rhinesmith & Simonson, 30  
Organ Factory, 50  
Rankie, Yerges & Co., 54  
Bosker & White, 50  
Stevens & Co., 20  
Jacoby & Wiegand, 10  
Wheeler & Co., 7  
Burkholder & Co., 10  
Cochrane, Humphrey & Co., 12  
Total, 1,093

## CLOTHING, CLOTHS, ETC.

## FLOUR MILLS.

An important and valuable industry is the manufacture of flour, cornmeal, spices, etc.

## CITY MILLS.

Hoagland & Tresselt have four run of stone, employ ten men and average eighty barrels of flour per day, which is shipped mainly to the east.

## EMPIRE MILLS.

These mills have four run of stone, employ eight men and turn out 120 barrels of flour in twenty-four hours. They ship mostly to the east.

## ESMOND'S MILL.

This mill employs five men and turns out seventy-five barrels of flour daily. Shipments principally eastward.

## TRENTMAN, MONNING &amp; SON.

This firm has \$45,000 capital invested, employs eight hands, manufactures flour, ground coffee, etc., and ships to Indiana, Ohio, Michigan, Illinois and other states.

## BLOOMINGDALE MILLS.

These mills run sixteen hours per day, employ ten men and have been established twelve years. They have a capacity of 120 barrels per day, and produce on an average of 75 barrels per day.

## RUDISILL'S MILLS.

These mills employ seven men and produce sixty-five barrels per day.

## HAMILTON'S MILLS.

These mills have been established eight years, and grind spices and roast coffee, and make baking powder. Their goods are shipped all over the country. They employ eight men.

## SUMMARY.

All of our mills now make the patent process flour. The total product of the city is about 500 barrels per day. Men employed:

City mills, 10  
Empire mills, 8  
Esmond's mills, 5  
Trentman, Monning & Son, 8  
Bloomington mills, 10  
Rudisill's mills, 7  
Hamilton's mills, 8  
Total, 56

## MARBLE AND STONE.

## SUTERMEISTER &amp; CO.

stone and marble works, employ fifteen men.

## CITY STEAM MARBLE WORKS.

These works employ seven men.

## UNDERHILL'S MARBLE WORKS.

Ten men are employed in these works.

## SUMMARY.

Sutermeister & Co., 15  
City Works, 7  
Underhill's, 10  
Total, 32

## MISCELLANEOUS.

FRED. ECKERT'S PACKING HOUSE, established only about eighteen months ago, has already become recognized as one of Fort Wayne's most flourishing industries. Although at present killing only about 400 head of beef per week and employing but eight hands, the season will soon open when Mr. Eckert will slaughter from 250 to 300 head per day and will be obliged to employ about 20 or 25 hands.

## MC KEAN &amp; O'ROURKE.

Among the successful enterprises of more recent date stands prominent the soap factory of McKean & O'Rourke, situated on the canal near White's factory. The factory has been running now just about a year, and the prospect is most encouraging. McKean & O'Rourke boil soap about once a week, and the usual batch is about 12,000 pounds. The process of manufacturing soap is decidedly interesting. After being boiled the mass is allowed to stand two or three days, when it becomes sufficiently cool to work or be "crutched." It is then drawn off and allowed to harden when it is cut into cakes, stamped, wrapped and boxed. They manufacture twelve brands of laundry soap, besides two brands of fine castile. Their sales are about 120 boxes per week and can easily be increased as soon as they can obtain the manufacturing facilities. Their goods go into Ohio and Michigan besides this state. Quite recently they have also engaged in preparing a superior blueing, branded the "Favorite." Six men are now employed.

## PLOW WORKS.

J. K. Edgerton's plow works, corner of Maiden Lane and Main street, employ 30 men and turn out all kinds of plows, scrapers, road levelers, grain and seed cleaners, harrows, etc. Mr. Edgerton ships all over the west.

## GAS WORKS.

The manufacture of gas is an important industry. The company here has a capital of \$225,000, employs 13 men constantly and sometimes as many as 30 and manufactures 13,000,000 cubic feet of gas per annum.

## CIGAR FACTORIES.

Our reporter was unable to investigate the cigar factories, but it is safe to say that Messrs. Reiter, Eckert, Ortman, Dessauer & Co., Venninghoff, Foot, Reinhold and others, employ as many as 150 men all told.

## SUMMARY.

A summary of the miscellaneous industries above mentioned shows the following to be the number of men employed in them:

Eckert, 8  
McKean & O'Rourke, 6  
J. K. Edgerton's, 30  
J. W. Work, 13  
Cigar Factories, 150  
Total, 197

## GENERAL SUMMARY.

## MINOR INDUSTRIES.

A large number of minor industries, employing from two to six men each, are not enumerated in the above. They may be classified as bakers and confectioners, basket makers, blacksmiths, boat builders, bonnet blanchers, bookbinders, shoemakers, brickmakers, broom manufacturers, cracker manufacturers, cabinet makers, carpenters, carpet weavers, carriage and wagon makers, cement pipe manufacturers,

cider makers, coopers, file, manufacturers, furniture makers, iron cornice manufacturers, plumbers and gas fitters, gold and silver platers, harness and saddlemakers, locksmiths and gunsmiths, horse collar makers, medicine makers, plaster dealers, mineral water manufacturers, model makers, picture frame makers, potteries, pump makers, slate roofers, saw manufacturers, saw mills, sewer pipe makers, suspender makers, tanners, shirt makers, sheet iron workers, trunk makers, tin smiths, truss makers, umbrellas makers, coffin makers, upholsterers, etc., etc. All of the above are, in a certain sense, manufacturers, and those occupations probably employ 1,000 to 2,000 men in this city, yet it is scarcely within the scope of this article to go into details concerning them.

## A RECAPITULATION.

A recapitulation shows that the following are but a few of the many articles manufactured in this city: Locomotives, coaches and cars of all kinds, car wheels, steam engines and machinery of every description, gas works, stoves, spokes, hubs, wheels, wagon stock, carriages and wagons, musical instruments, agricultural implements, furniture, tubs, buckets and boxes, sash, doors and blinds, staves and barrels, flour, ground spices, handles, beer, gas, soap, stone, cigars, woolen goods, overalls, all on a large scale, besides a multiplicity of articles on a small scale entirely too numerous to mention.

The information as to capital invested, disbursements for stock, and labor and annual value of products is not so full as was desired. It is hoped that this can be presented in a future article. The following summary shows the number of men employed in the principal manufacturing branches:

Bath and shops, 933  
Iron foundries, 845  
Factories, 1,093  
Esmond's mills, 5  
Cloth mills, etc., 190  
Breweries, 252  
Four mills, 56  
Marble works, 32  
Miscellaneous, 197

Grand total (exclusive of minor industries), 3,394

We have no hesitation whatever in recommending Dr. Bull's Baby Syrup for children teething or suffering from wind colic, diarrhoea or dysentery.

## THE CITY.

Fair opens Monday.  
The agricultural society is in session.  
To-day's edition of the SENTINEL is \$9.54.  
Justice Ryan acted as police judge this morning.  
The infant child of John Reiter died yesterday.  
Hay is worth only \$3.00. A fall of \$2.00 in two days.  
Judge Coffinberry, of Constance, Mich., is in the city.  
The market collections this morning amounted to \$3.  
Dr. Anderson's horse ran away and demolished his buggy.  
The horse entries for the fair will not be all in for several days.  
Law Hazzard will run a shooting gallery at the fair next week.  
The Encampment met last night. Steve O'Connor rode the goat.  
Salsbury's Troubadours play at popular prices—50 and 75 cents.  
W. H. H. Miller's houses on East Wayne street are going up rapidly.  
Miss Zerelda Benry, of Mount Vernon, O., is visiting in this city.  
Christ, Ryan and bride have returned from their wedding tour.  
Mrs. William Dreier and mother, Mrs. Corcoran, are visiting friends in Chicago.  
The box sheet for Salsbury's Troubadours will open at Fowler's next Monday morning.  
Chas. Collett, tonsorial artist, is out again, after a two-weeks' rest with typhoid malaria.  
Dr. S. C. Greyson takes the chair of pathology in the Fort Wayne College of Medicine.  
Wilding & Son had the first coal weighed by the city coal weigher under the new ordinance.  
Prof. R. W. Tarriff, of Lima, Ohio, will lecture in the Fort Wayne College of Medicine this week.  
Joseph Gair, foreman in the Muncie blacksmith shop, is nursing a sore foot. The foot came in contact with a chunk of iron.  
The funeral of Mrs. Beam will take place at the Third Street M. E. Church to-morrow morning. Services by the Rev. J. M. Woolpert.  
Trentman, Monning & Co. have dissolved partnership. Henry Monning retiring. The new firm will be John B. Monning & Co.  
Henry G. Olds has been appointed starting judge at the races next week.  
B. S. O'Connor and A. C. Perrin will be the other judges.  
The chief of the fire department was out on the hunt this morning to find out where the trouble was on the fire alarm telegraph.  
Christ Pierson, living in St. Joe township, has corn on two acres twelve feet high, each stalk containing eight to twelve ears of corn. The seed was brought from France.  
On the 12th of October, the six Rekers brothers, will celebrate the fortieth anniversary of their landing in this country. They have lived in Fort Wayne thirty-nine years.  
Salsbury's Troubadours, the most charming and successful musical combination traveling, will present their delightful entertainments at the Academy next Wednesday and Thursday nights.  
Mr. and Mrs. Lorenzo D. George, of Mayville, Springfield township, celebrate the fortieth anniversary of their wedding on the 11th of October. A number of their Fort Wayne friends will go down.  
If you have found or lost anything, want to buy or sell anything, want a situation or want to employ help, want to rent a house or have a house to rent, advertise in the half cent column of the SENTINEL and reach 15,000 readers every day.  
Cobb, the Van Wert murderer, was arrested on Friday, by the sheriff, of Van Wert county, O. He discovered where Cobb was staying, surrounded the house and when he attempted to escape, captured him. Mrs. Cobb will probably recover, but Mrs. Bagby will in all probability die.  
Mrs. Elizabeth Beam, the mother-in-law of Morgan Harrod of Marion township, and mother of Mrs. Duffy, No. 98 Burdick street, died at the residence of the latter, at 9 o'clock, last night. Mrs. Beam was born near Harper's Ferry in Maryland, in 1805, and moved to Fort Wayne in 1836, where she has since lived. Funeral services at the M. E. chapel at 9 o'clock on Sunday morning. Friends of the family are invited without further notice.

## FOUL PLAY.

## A Mysterious Case in Bel River Township.

## Sudden and Unaccountable Death of a Woman.

## Rumor That She Was Poisoned—An Inquest Being Held.

Bel River township is in a ferment of excitement over a somewhat MYSTERIOUS DEATH

which occurred within its boundaries yesterday morning at 5 o'clock. The deceased was a Mrs. Read, living about twelve miles north of this city, near Wesley chapel. Dr. Campbell who attended her, at first declared that death resulted from heart disease and ulceration of the stomach, but subsequently that death was caused by poison. The deceased was a woman about forty-seven years of age, and had lived in Bel River township a number of years. She had no children. Her husband went to Kansas about three years since and returned last spring, since which time they have not lived happily together, having

QUARRELED A GOOD DEAL about some property which stood in Mrs. Read's name.

Read, it appears, bears an unenviable reputation in the neighborhood and when the poisoning rumor got afloat the people generally charged him with the murder of his wife, and demanded an investigation. Read had no objection, however, and has not acted like a guilty man. A. T. Estabrook and A. S. Johnson, two well known residents of Bel River township, came to the city to-day and notified Coroner Gaffney, who at once left for the scene accompanied by Drs. Myers and Wherry for the purpose of holding

AN AUTOPSY AND INQUEST. This will establish whether the dead woman came to her death by natural means or was a victim of foul play.

## AMUSEMENTS.

## THE TENNESSEANS.

The world renowned Tennesseans, the finest colored concert troupe in the world, will give an entertainment at the Academy of Music, next Tuesday night and should be well patronized. Seats can now be secured at Fowler's.

## SAULSBURY'S TROUBADOURS.

This great company which produced such a *farce* in this city last season, will give their delightful entertainments at the Academy next Wednesday and Thursday evenings. A popular scale of prices has been adopted. The sale of seats begins at Fowler's Monday morning, and there will undoubtedly be a big rush for them.

## THE RAILROADS.

Freight on the Pittsburgh is picking up.

Ninety cars of stock passed east over the Pittsburgh yesterday.

Fred B. Converse has returned from his trip to the East and this morning resumed his old position at the dispatcher's desk.

Engine No. 157 on No. 6, last night, with twelve cars, beat a Michigan Southern train with eleven cars in a race out of Chicago. This is the first time a Pittsburgh engine ever beat a Southern train having a less number of cars.

Engine 158, the mate to 157, went west on freight this morning.

Wabash engine 28, a brand new one, will leave the shop by Monday. She will be able to haul 70 loaded cars.

Engine 14, will leave the Wabash hospital the fore part of next week.

Wabash engine 12, looks handsome, after a general overhauling.

Freight continues very heavy on the Wabash.

The boiler of an engine from the Bel River Road has arrived at the Wabash shops for a new fire-box.

## That Hanging Bee.

Frank Cosgrove returned from Indianapolis to-day, where he yesterday witnessed the execution of Louis Guetig. He says that while the death warrant was being read Guetig fastidiously bent down and brushed a speck of dust from his pants. He evinced no emotion at all and remained perfectly firm until the sheriff walked toward the drop lever when he was seen to waver a little. The drop however fell, and he was launched into eternity.

During the morning, while joking with the turnkey, he asked, "Why am I like a Mexican pony?" The turnkey gave it up, and Guetig replied, "Because I must hang" (mustang).

## Suit for an Injunction.

Jesse E. Straghan has begun suit against J. H. Bass and others, to restrain Mr. Bass from paying over to the other defendants the proceeds of certain bonds of the Columbus, Springfield & Cincinnati R. R., held by Mr. Bass as trustee for the other parties defendant. The amount of the bonds, with interest, is \$14,200. A restraining order was granted until Monday at 2 p. m., when a hearing will be had on the petition for an injunction. The case is set for trial in October.

## Appreciative.

To the Editor of the SENTINEL: The Fort Wayne SENTINEL is acknowledged, by the masses of working men, both republicans and democrats in general, to be the cheapest and best daily in the state. I congratulate you, Mr. Editor, on your grand success. Respectfully,

P. J. FAISON.  
Orders are being looked now for coaches for the fair and races at Omnibus office.

## AROUND ABOUT.

## Items of Local Interest Gathered from Our Exchanges.

The Fort Wayne SENTINEL of last Saturday, in copying our item in regard to the establishment of a marble shop here, errs typographically in stating that it is P. S. Underhill who thinks of coming. That gentleman died at Fort Wayne some time since, and it was his son, E. S. Underhill, whom we alluded to. Please "follow copy" hereafter.

[Huntington Democrat.]

The Bluffton papers assert that at least 200 people from Bluffton attended Barnum's show at Fort Wayne on last Friday. We thought the city presented quite a rural appearance that day, but did not know so many were present from Bluffton.

[Angola Herald.]

The Alfred College of Fort Wayne, will open its winter session next month, with over forty students in attendance.

[Columbia City Post.]

Among the many novel attractions of the Fort Wayne fair next week will be Col. Pettit's troupe of twenty horses, and he will ride twenty miles in fifty minutes. This is going to be the most entertaining fair ever held in Fort Wayne.

[Kendallville News.]

A good hearty drink of the artesian well water at Fort Wayne, will make any person sick for the next twenty-four hours after partaking of it.

## The War Goes On.

To the Editor of the SENTINEL:

In last evening's SENTINEL I noticed an article entitled "For the Benefit of the Crank Styling Himself Justice," signed by Chas. Young, in which he calls "Justice" a liar and scoundrel, and winds the article up by saying no doubt he is one of the gang that attempted to take his life. We would respectfully inform the public, and Mr. Young in particular, that "Justice" is at all times ready to compare character with Mr. Young in any community where we are known or on the docket of any justice of the peace or court records of the country. As for attempting to take the life of Mr. Young, it is all moonshine. We did nothing but what any man would do—defend the good name of his mother and himself from injury; and in conclusion, would say to Mr. Young, that if he wishes to prosecute to the full extent of the law, he must remember that there are two sides to all things, and that evidence might be produced that would injure his good character. D. KEANS.

## Matrimonial.

Frank Renny and Miss Jennie Wood will be married on the 2nd of October.

Louis Schroeder is making extensive preparations for a wedding and bride tour.

George King, the popular engineer on the Wabash, will be married to Miss Mouran, of Roanoke, the 30th of September. He will give the boys a big time.

Mike Neilligan is thinking of getting married.

Miss Hattie Harmon and Joe Douglas, of Chicago, will be married on the 24th inst.

## A Card.

To the Editor of the SENTINEL: I want you to correct an error in your last night's paper concerning Miss Hedges's wedding, and that is this: She was not a graduate of the high school. It was Sarah L. Hedges who was—the graduate of the high school. She is at home now with her parents. As for Miss Alice Hedges being deprived of her wardrobe, she never was. She got her clothes, all but a few, and I told her that she could have all of them if she came in daylight and did not bring a body guard with her. THOS. J. HEDGES.

## It Is Not Decided.

To-day's Lafayette Journal says:

It seems that the question of the departure from the city of the Rev. Father Hallinan is not yet settled. Messrs. Duffy and Gallagher came home last night from Fort Wayne, where they had gone to see Bishop Dwenger to ask him not to make the change. They presented a petition signed by over 1,000 members of the congregation. The bishop said he did not remove the father and did not know as he would. We hope he will not.

## CITY FEATURES.

Parties visiting the fair and races, should go to the only place keeping first class coaches, the Omnibus Barn, and leave orders early.

Conveyances will be in waiting to-morrow at the corner of Main and Calhoun streets, to take parties to the picnic at Centlivre's.

Do not fail to order one of those fine coaches for the fair and races, found only at the Omnibus Barn.

The Messrs. Gould & Schaff, manufacture Upright Pianos, equal in point of merit to the Knabe or Steinway, and at reasonable prices. Purchasers of pianos should see these wonderful pianos. Mr. C. L. Hill will probably take the agency for this place.

Careful, sober, gentle drivers and splendid coaches at the Omnibus Barn. Leave your orders for the fair and races.

Nobody should fail to attend the picnic at Centlivre's to-morrow, by the Harmonia Society.

## CHICAGO AND RETURN!

Only \$2.00, Pittsburgh, Fort Wayne & Chicago Railway.

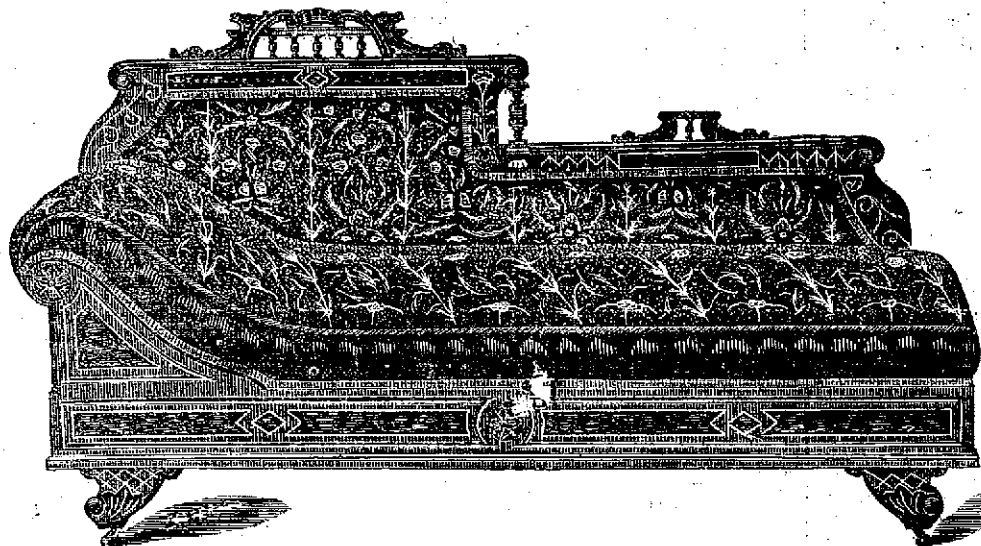

Special train will leave Fort Wayne at 11.50 a. m., Tuesday, Sept. 23, arrive at Chicago at 5 o'clock. Tickets good for five days. Return on any train making regular stops up to and including Saturday, Sept. 27. The magnificent exposition open day and night, admission only 25c.

C. D. FORMAN, Supt. Fort Wayne. F. R. MYERS, Gen'l Pass. and Tkt. Ag't., Chicago.

## 15-WEST WAYNE STREET.-15

For a nobby suit and fine fit go to J. G. Thieme & Bro., 37 and 39 Calhoun street.

Don't forget the picnic at Centlivre's to-morrow.

Quinnes and Bartlett's 50c perk. Ferry House.

The picnic at Centlivre's to-morrow promises to be a grand affair.

The handsomest line of custom goods displayed by J. G. Thieme & Bro.

Boston Tea Store. The cheapest place to buy groceries and "don't you forget it."

This is to certify that I have been a great sufferer from piles for six years. I have doctored and have taken almost every medicine that I could hear of, but with no relief, until I used one package of Dr. Preston's New Medical Compound. I claim I am entirely cured. This medicine acts on the liver, blood, relieves constipation and thus cures piles. The above proved a blessing to me. Yours respectfully,

WASHINGTON CARPENTER, Sept. 20th, 1879. Fort Wayne, Ind.

In his meanderings to-day, our worthy reporter happened to drop in to the popular infolding parlors of A. Foster, No. 80 Calhoun street. Here the reportorial optics were met on all sides by a bewildering array of fancy fall suitings. It would be impossible to convey to our readers any idea of the endless variety of fancy piece goods found here. Suffice it to say that A. Foster has the finest stock in the city and enjoys a deserved popularity on account of his matchless fidelity in the window of Root & Co. Copies for sale at the gallery, corner Calhoun and Columbia streets.

Feathers and flowers at one half what other milliners ask for them, at Noll Bros.

A SENTINEL reporter, while walking down Calhoun street this morning, heard the exclamation "That's a fine hat." His attention being thus attracted he turned and beheld a magnificent piece of head gear just pressing upon the head of a nobby young gent. The reporter followed him in hope of finding out more about the hat which attracted such universal attention. He had not gone far when some one remarked, "That hat was purchased at Golden & Monahan's." This settled it and the milliner was immediately dropped.

Go and see the tremendous stock and low prices at John G. Flederman's.

Don't You Forget It. The picture taken by JONES, the photographer, of the masonic ceremonies, is the only one made showing Grand Master Sutton and assistants laying the corner stone of Masonic Temple. Can be seen and for sale at the New York gallery and Simon Bro.'s book store.

A complete line of satins and velvets for dress trimmings, very cheap, at Noll Bros.

"Miller, the Matter," 34 Calhoun street, Has Caps, Collars, Hats, Coats, Neckties, Shirts, Underwear, all in the latest styles, fine and cheap. Call and see if this is not true.

J. G. Thieme & Bro. display the handsomest line of custom goods in the city.

25 dozen of Harris & Tryflos' black seamless Kid Gloves, one and two buttons, at 40 cents a pair at LOUIS WOLF'S.

Everybody with an eye for art will give HAMILTON, the popular Photographer, the credit for having produced the finest views of the Masonic Temple ceremony. Samples can be seen in the window of Root & Co. Copies for sale at the gallery, corner Calhoun and Columbia streets.

The Muncie Road Will sell round-trip tickets to Cincinnati on Monday, September 22nd, at \$4; tickets good to return until and including Saturday, 27th. Train leaves 10:40 a. m.

Remember the New York Gallery when you want photographs or tin types of any kind. They give you good work and guarantee satisfaction. Over Hamilton Bank, Fort Wayne, Ind.

The Muncie Road Will sell round-trip tickets to Cincinnati on Monday, September 22nd, at \$4; tickets good to return until and including Saturday, 27th. Train leaves 10:40 a. m.

Deviled crabs are all the "rage." They can be found at the "Boston Tea Store."

J. Wasserbach, the popular merchant tailor, has received an immense stock of fall and winter suitings. Satisfaction guaranteed to all customers. Call and see him at No. 40 Harrison street.

The finest assortment of Laces in white and black, at less money than they can be found anywhere else, at LOUIS WOLF'S.

\$21 will buy a good 8-inch reservoir cooking stove, weighing 360 pounds, with 52 pieces of first-class trimmings at \$25\*\* A. D. BRANDRIF & Co.

These cracknels at the Boston Tea Store are delicious.

Noll Bros. trim hats and bonnets to order.

Jersey Sweet Potatoes, 35c peck. FRUIT HOUSE.

For all kinds of millinery goods, go to Noll Bros.

## THE CITY.

Fair opens Monday. The agricultural society is in session. To-day's edition of the SENTINEL is 2,984.

Justice Ryan acted as police judge this morning.

The infant child of John Reiter died yesterday.

Hay is worth only \$8.00. A fall of \$2.00 in two days.

Judge Coffinberry, of Constance, Mich., is in the city.

The market collections this morning amounted to \$8.

Dr. Anderson's horse ran away and demolished his buggy.

The horse entries for the fair will not be all in for several days.

Lew Hazzard will run a shooting gallery at the fair next week.

The Encampment met last night. Steve O'Connor rode the goat.

Salsbury's Troubadours play at popular prices—50 and 75 cents.

W. H. H. Miller's houses on East Wayne street are going up rapidly.

Miss Zerda Benvy, of Mount Vernon, O., is visiting in this city.

Christ Ryan and bride have returned from their wedding tour.

Mrs. William Dreier and mother, Mrs. Corcoran, are visiting friends in Chicago.

The box sheet for Salsbury's Troubadours will open at Fowler's next Monday morning.

Chas. Gellert, tonsorial artist, is out again, after a two-weeks' rest with typhoid malaria.

Dr. S. C. Greyston takes the chair of pathology in the Fort Wayne College of Medicine.

Wilding & Son had the first coal weighed by the city coal weigher under the new ordinance.

Prof. R. W. Tariff, of Lima, Ohio, will lecture in the Fort Wayne College of Medicine this week.

Joseph Gair, foreman in the Muncie blacksmith shop, is nursing a sore foot. The foot came in contact with a chunk of iron.

The funeral of Mrs. Beam will take place at the Third Street M. E. Church to-morrow morning. Services by the Rev. J. M. Woolpert.

Trentman, Monning & Co. have dissolved partnership. Henry Monning retiring. The new firm will be John B. Monning & Co.

Henry G. Olds has been appointed starting judge at the races next week. B. S. O'Connor and A. C. Perrin will be the other judges.

The chief of the fire department was out on the hunt this morning to find out where the trouble was on the fire alarm telegraph.

Christ Pierson, living in St. Joe township, has corn on two acres twelve feet high, each stalk containing eight to twelve ears of corn. The seed was brought from France.

On the 12th of October, the six Rekers brothers will celebrate the fortieth anniversary of their landing in this country. They have lived in Fort Wayne thirty-nine years.

Salsbury's Troubadours, the most charming and successful musical combination traveling, will present their delightful entertainments at the Academy next Wednesday and Thursday nights.

Mr. and Mrs. Lorenzo D. George, of Maysville, Springfield township, celebrate the fortieth anniversary of their wedding on the 11th of October. A number of their Fort Wayne friends will go down.

If you have found or lost anything, want to buy or sell anything, want a situation or want to employ help, want to rent a house or have a house to rent, advertise in the half cent column of the SENTINEL and reach 15,000 readers every day.

Cobb, the Van Wert murderer, was arrested on Friday, by the sheriff, of Van Wert county, O. He discovered where Cobb was staying, surrounded the house and when he attempted to escape, captured him. Mrs. Cobb will probably recover, but Mrs. Eagy will in all probability die.

Mrs. Elizabeth Beam, the mother-in-law of Morgan Harrod of Marion township, and mother of Mrs. Duffy, No. 98 Barthold street, died at the residence of the latter, at 9 o'clock, last night. Mrs. Beam was born near Harper's Ferry in Maryland, in 1805, and moved to Fort Wayne in 1856, where she has since lived. Funeral services at the M. E. chapel at 9 o'clock on Sunday morning. Friends of the family are invited without further notice.

## Religious.

Rev. A. E. Berry, of the Toledo Central Ohio Conference, will preach at the Berry Street M. E. Church to-morrow at 10:30 o'clock, and Rev. L. A. Belt, D. D., of the same conference, will preach in the evening at 7:30 o'clock. The male quartette will furnish the music. All are invited.

Rev. L. A. Belt, D. D., of the Central Ohio Conference, will preach at the Wayne Street M. E. Church to-morrow at 10:30 o'clock, and Rev. A. E. Berry, of the same conference, at 7:30 o'clock.

Services in the Universalist Church to-morrow. Morning subject: "Being Godlike." Evening topic: "The Second Death."

Dr. Stone will preach to-morrow morning on "Jesus as the Light and Life of the World," and in the evening on "The Christian's Relations and Duties to Civil Government and to the State."

The annual meeting of all the congregations of the Christian church in this county commenced last evening at Little River and will continue over Sunday, consequently there will be no services at the Christian chapel in this city to-morrow.

Revs. L. A. Belt and A. E. Berry, of the Central Ohio Conference, will preach at the Wayne and Berry street churches alternately to-morrow morning and evening.

"Buckingham."

## FOUL PLAY.

## A Mysterious Case in Eel River Township.

## Sudden and Unaccountable Death of a Woman.

## Rumor That She Was Poisoned—An Inquest Being Held.

Eel River township is in a ferment of excitement over a somewhat

## MYSTERIOUS DEATH

which occurred within its boundaries yesterday morning at 5 o'clock. The

decedent was a Mrs. Read, living about twelve miles north of this city,

near Wesley chapel. Dr. Campbell who attended her, at first declared

that death resulted from heart disease and ulceration of the stomach, but

subsequently that death was caused by poison. The deceased was a

woman about forty-seven years of age, and had lived in Eel River township a

number of years. She had no children. Her husband went to Kansas

about three years since and returned last spring, since which time they

have not lived happily together, having

## QUARRELED A GOOD DEAL

about some property which stood in Mrs. Read's name.

Read, it appears, bears an unenviable reputation in the neighborhood and

when the poisoning rumor got afloat the people generally charged him with

the murder of his wife, and demanded an investigation. Read had

no objection, however, and has not acted like a guilty man.

A. T. Patahook and A. S. Johnson, two well known residents of Eel River

township, came to the city to-day and notified Coroner Gaffney, who at once

left for the scene accompanied by Drs. Myers and Wherry for the purpose of

holding

## AN AUTOPSY AND INQUEST.

This will establish whether the dead woman came to her death by natural

means or was a victim of foul play.

## AMUSEMENTS.

## THE TENNESSEANS.

The world renowned Tennesseans, the finest colored concert troupe in

the world, will give an entertainment at the Academy of Music, next Tues-

day night and should be well patronized. Seats can now be secured at

Fowler's.

## SALSURY'S TROUBADOURS.

This great company which produced such a future in this city last season,

will give their delightful entertainments at the Academy next Wednesday

and Thursday evenings. A popular scale of prices has been adopted.

The sale of seats begins at Fowler's Monday morning, and there will un-

doubtedly be a big rush for them.

## THE RAILROADS.

Freight on the Pittsburgh is picking up.

Ninety cars of stock passed east over the Pittsburgh yesterday.

Fred B. Converse has returned from his trip to the East and this morning resumed his old position at the dis-

patcher's desk.

Engine No. 157 on No. 6, last night, with two cars, beat a Michigan

Southern train with eleven cars in a race out of Chicago. This is the first

time a Pittsburgh engine ever beat a Southern train having a less number

of cars.

Engine 158, the mate to 157, went west on freight this morning.

Wabash engine 38, a brand new one, will leave the shop by Monday. She

will be able to haul 70 loaded cars.

Engine 14, will leave the Wabash hospital the fore part of next week.

Wabash engine 12, looks handsome, after a general overhauling.

Freight continues very heavy on the Wabash.

The boiler of an engine from the Eel River Road has arrived at the Wabash shops for a new fire-box.

## That Hanging Bee.

Frank Cosgrove returned from Indianapolis to-day, where he yesterday

witnessed the execution of Louis Guetig. He says that while the death

warrant was being read Guetig fastidiously bent down and brushed a speck

of dust from his pants. He evinced no emotion at all and remained perfectly firm until the sheriff walked

toward the drop lever when he was seen to waver a little. The drop

however fell, and he was launched into eternity.

During the morning, while joking with the turnkey, he asked, "Why am I like a Mexican pony?" The turn-

key gave it up, and Guetig replied, "Because I must hang" (mustang).

## Suit for an Injunction.

James R. Straughan has begun suit against J. B. Bass and others, to restrain Mr. Bass from paying over to the other defendants the proceeds

of certain bonds of the Columbus, Springfield & Cincinnati R. R., held by Mr. Bass as trustee

for the other parties defendant. The amount of the bonds, with interest, is \$14,200. A restraining order was granted until

Monday at 2 p. m., when a hearing will be had on the petition for an in-

junction. The case is set for trial in October.

## Appreciative.

To the Editor of the SENTINEL:

The Fort Wayne SENTINEL is acknowledged, by the masses of working

men, both republicans and democrats in general, to be the cheapest and best

daily in the state. I congratulate you, Mr. Editor, on your grand suc-

cess. Respectfully,

P. J. FALLON.

Orders are being booked now for coaches for the fair and races at Om-

nibus office. 9,20

"Buckingham."

## AROUND ABOUT.

## Items of Local Interest Gathered from Our Exchanges.

[Auburn Courier.]

The Fort Wayne SENTINEL, of last Saturday, in copying our item in re-

gard to the establishment of a marble shop here, errs typographically in

stating that it is P. S. Underhill who thinks of coming. That gentleman

died at Fort Wayne some time since, and it was his son, E. S. Underhill,

whom we alluded to. Please "follow copy" hereafter.

[Huntington Democrat.]

The Bluffton papers assert that at least 200 people from Bluffton at-

tended Barnum's show at Fort Wayne on last Friday. We thought the city

presented quite a rural appearance that day, but did not know so many

were present from Bluffton.

[Angola Herald.]

The Medical College of Fort Wayne, will open its winter session next

month, with over forty students in attendance.

[Columbia City Post.]

Among the many novel attractions of the Fort Wayne fair next week

will be Col. Pettit's troupe of twenty horses, and he will ride twenty miles

in fifty minutes. This is going to be the most entertaining fair ever held

in Fort Wayne.

[Kendallville News.]

A good hearty drink of the artesian well water at Fort Wayne, will make

any person sick for the next twenty-four hours after partaking of it.

## The War Goes On.

To the Editor of the SENTINEL:

In last evening's SENTINEL I noticed an article entitled "For the Benefit

of the Crank Styling Himself Justice," signed by Chas. Young, in which he

calls "Justice" a liar and scoundrel, and winds the article up by saying no

doubt he is one of the gang that attempted to take his life. We would respect-

fully inform the public and Mr. Young in particular, that "Justice" is at all

times ready to compare character with Mr. Young in any community where

we are known or on the dockets of any justice of the peace or court

records of the country. As for attempting to take the life of Mr. Young, it is all moonshine. We did

nothing but what any man would do—defend the good name of his mother and himself from

injury; and in conclusion, would say to Mr. Young, that if he wishes to

prosecute to the full extent of the law, he must remember that there are

two sides to all things, and that evidence might be produced that would

injure his good character. D. KERNS.

## Matrimonial.

Frank Benvy and Miss Jennie Wood will be married on the 2nd of

October.

Louis Schroeder is making extensive preparations for a wedding and

brida tour.

George King, the popular engineer on the Wabash, will be married to

Miss Mouran, of Roanoke, the 30th of September. He will give the boys a

big time.

Mike Nelligan is thinking of getting married.

Miss Hattie Harmon and Joe Douglass, of Chicago, will be married on the 24th inst.

## A Card.

To the Editor of the SENTINEL:

I want you to correct an error in your last night's paper concerning

Miss Hedges' wedding, and that is this: She was not a graduate of the

high school. It was Sarah L. Hedges that was the graduate of the high

school. She is at home now with her parents. As for Miss Alice Hedges

being deprived of her wardrobe, she never was. She got her clothes, all

but a few, and I told her that she could have all of them if she came in daylight and did not bring a body

guard with her. THOS. J. HEDGES.

## It is Not Decided.

To-day's Lafayette Journal says:

It seems that the question of the departure from the city of the Rev. Father Hallinan is not yet settled.

Messrs. Duffy and Gallagher came home last night from Fort Wayne,

where they had gone to see Bishop Dwenger to ask him not to make the

congregation. They presented a petition signed by over 1,000 members of the

congregation. The bishop said he had not removed the father and did not

know as he would. We hope he will not.

## CITY FEATURES

Parties visiting the fair and races, should go to the only place keeping

first class coaches, the Omnibus Barn, and leave orders early. 9,20

Conveyances will be in waiting to-morrow at the corner of Main and

Calhoun streets, to take parties to the picnic at Centlivre's. 11

Do not fail to order one of those fine coaches for the fair and races, found only at the Omnibus Barn. 9,20

The Messrs. Goold & Schaff, manufacture Upright Pianos, equal in point

of merit to the Knabe or Steinway, and at reasonable prices. Purchasers of

pianos should see these wonderful pianos. Mr. C. L. Hill will probably

take the agency for this place. 11

Careful, sober, genteel drivers and splendid coaches at the Omnibus

Barn. Leave your orders for the fair and races. 9,20

Nobody should fail to attend the picnic at Centlivre's to-morrow, by the

Harmonia Society. 11

## CHICAGO AND RETURN!

Only \$5.00, Pittsburgh, Fort Wayne & Chicago Railway.

Special train will leave Fort Wayne at 11:50 a. m., Tuesday, Sept. 23,

arrive at Chicago at 5 o'clock. Tickets good for five days. Return on

any train making regular stops up to and including Saturday, Sept. 27.

The magnificent exposition open day and night, admission only 25c.

C. D. GORHAM, Sup. Fort Wayne, F. R. MYERS, Gen'l Pass. and Tkt. Ag't, Chicago.

"Buckingham."

At H. J. Ash, No. 9 East Columbia street, the Garland and Astral Base Burner are the two leading

stoves of the day. Parties wanting good reliable stoves should secure one of these celebrated heaters and they

will live long and prosper and be happy. 9,20,3

The Harmonia Society will hold a grand picnic at Centlivre's Park to-morrow. The St. Cecilia Band will

furnish the music. 11

"Oh, Ma! Did you hear that

Pierr is going to have a fair next week? I saw they got a wagon load

of goods." "What did you say, Clara?"

"Pierr is going to have a fair." "No, I suppose you mean an opening."

"Yes, yes, an opening. They got so many nice things—hats, and such beautiful flowers. Oh, they always

have the prettiest millinery in the city. I want you to buy me one of

those nice hats, will you ma?" 11

One dollar buys a good pair of jeans pants—our own make. 9,20,6
